**Note from Internet Publisher:  
Donald L. Potter**

October 10, 2010  
(Revised Nov. 19, 2010)

Dr. Samuel L. Blumenfeld wrote these *Phonics Practice Cards* in 1997 for his *Blumenfeld Alpha-Phonics Kit*. They were designed to be used by student learning to read, spell using the *Blumenfeld Alpha-Phonics Primer for Beginning Readers: Workbook*. The Kit also contained a set of eleven decodable readers (*First Readers*) and a seven cassettes coordinate with the *Workbook* and *First Readers*.

I have reproduced these Phonics Practice Cards to use with my Blumenfeld Alpha-Phonics tutoring students at the Odessa Christian School in Odessa, TX.

*The Alpha-Phonics Primer: Workbook* can be ordered from Chalcedon Publishing:

**Note from Internet Publisher:  
Donald L. Potter**

October 13, 2010

Dr. Samuel L. Blumenfeld wrote these *Phonics Practice Cards* in 1997 for his *Blumenfeld Alpha-Phonics Kit*. They were designed to be used by student learning to read and spell using the *Blumenfeld's Alpha-Phonics Primer for Beginning Readers: Workbook*. The Kit also contained a set of eleven decodable readers (*First Readers*) and a seven cassettes coordinate with the *Workbook* and *First Readers*.

I have reproduced these Phonics Practice Cards to use with my Blumenfeld Alpha-Phonics tutoring students at the Odessa Christian School in Odessa, TX.

*The Alpha-Phonics Primer: Workbook* can be ordered from Chalcedon Publishing:

The cards are designed to firm up the students' phonics reflex, making it automatic and accurate. This is the basis for fluent reading (automatic decoding without guessing) outstanding comprehension (meaning getting), and correct spelling. See the correlation study for the skills levels and *Blumenfeld Alpha-Phonics* lessons covered on the cards.

## Note from Internet Publisher: Donald L. Potter

October 23, 2010

This document explains the organization and contents of the *Blumenfeld's Alpha-Phonics Practice Card Decks*. These cards are not flash cards in the traditional sense of the word. They are designed to help automate the student's phonetic word identification reflex. They are NOT designed to develop a whole-word sight recognition vocabulary. This is a program that teaches reading from the "sounds" the letters represent and not from the "meaning" of the words. Even the irregular words are not taught by whole-word memorization, rather they are taught with spelling in their appropriate spelling-families: as, has, gas, was.

The greatest flaw of most modern reading methods is that they teach English as if it were a hieroglyphic writing system instead of an alphabetic writing system. Teaching English as a hieroglyphic language where the shapes of the words represent meaning - while skipping the sounds of the letters - leads to cognitive confusions because it violates the alphabetic nature of written English - and is the major source of low reading achievement.

In *Blumenfeld's Alpha-Phonics*, all external clues such as pictures are eliminated so the students can totally focus on mastering our alphabetic system of reading. This eliminates confusion and assures steady progress toward high reading achievement.

Reading skills are taught sequentially and reviewed in a spiraling fashion for total mastery and an absolute minimum of frustration. By the end of the program, students will achieve full automaticity, reading orally and silently as rapidly and with equal comprehension as when listening to a story being read or instructions being given.

### The Blumenfeld's Alpha-Phonics System Consists of the Following Components.

1. ***Blumenfeld's Alpha-Phonics Workbook***. This is the heart of the program containing both the Teacher's Manual and the Reading/Spelling lessons. Order from [www.chalcedon.edu](http://www.chalcedon.edu).
2. **Blumenfeld's Alpha-Phonics Practice Card Decks**. These Cards correspond with the sequential skills being taught from the *Blumenfeld's Alpha-Phonics Workbook*.
3. **Blumenfeld's Alpha-Phonics First Readers**. The First Readers is a set of decodable texts designed specifically to be used with the *Blumenfeld's Alpha-Phonics Workbook* and *Practice Cards*. The students practice their phonics skills with real stories. This is a major step to fluency and independent reading. There are no pictures in the readers since we consider pictures to be a distraction from the core skills of automatic
4. **Handwriting Paper**. This can be purchased at any office supply. Since *Blumenfeld's Alpha-Phonics* is taught with cursive handwriting from a chalk or whiteboard, the students will need lots of paper to write all the words and sentences in the Workbook. It is important to make sure the students can spell the words orally and in writing as well as they can read them so they can attain to "total linguistic function," the true goal of any legitimate reading program.
5. **Blumenfeld's Audio CD Instruction**. For parents and teachers who have not had instruction in the sounds the letter represent and how to teach them, this audio CD will be of tremendous help. Students without a teacher can work through the lessons by following the instruction on the CD.
