Decoding Fluency Cards

Copyright © 2016 by Donald L. Potter www.donpotter.net

Note from Internet Publisher: Donald L. Potter

April 14, 2016

Permission is hereby granted for non-commercial reproduction for educational purposes. Just cut out the cards on cardstock. You can laminate them for hard classroom use.

These flashcards have the **opposite** goal from sight-word flashcards. We are interested in fast decoding, but not instant whole-word identification that can lead to the development of the dreaded guessing habit. Sight words such as Dolch or Fry are designed to teach instant word identification with reference to the outward shape or configuration of words and not the individual letters. Our cards are designed to teach students to look at every letter and sound out the words with lightning speed. It may appear that the children are recognizing the words at sight without reference to the letters, but this is a deceptive illusion due to the brain modular design, which allows it to do parallel distributed processing.

Mr. Potter finished creating the slides on May 30, 2016.

Blend Phonics Pre-Primer Decoding Fluency Cards

<u>Steps</u>	<u>Phonics Skills</u>	<u>Lessons</u>	<u>Cards</u>
1	Short-ă m n r f s	1-6	1-8
2	Short-ĕ t l g c k ck b	7-13	9-45
3	Short-ĭ h d p	14-17	46-114
4	Short-ŏ j w	18-20	115-151
5	Short-ŭ z x v qu y	21-26	152-204
6	Double Letter Endings	27	205-242

The Steps can be used to group the cards in a card file. They should first be taught in order, but then practiced out of order as the students gain accuracy and speed. This discrimination practices is vital for the development of automatic. The cards can be used to play many fun games.
