Purpose: *The Blend Phonics Spelling Practice Cards* are designed to reinforce rapid and accurate word identification (decoding) and rapid and accurate word spelling (encoding).

Organization: The cards practice all the spelling patterns taught in the *Blend Phonics* reading program in the Six-Step Sequence from easy to more difficult.

Rationale: Students identify words they can spell faster and more accurately than words they cannot spell. Spelling is the flipside of reading. (Pace Dr. Ronald P. Carver’s *The Causes of High and Low Reading Achievement*, 2000).

Caveat: Mr. Potter specifically designed the flashcards to be used as a practice supplement to the spelling lessons in *The Blend Phonics Lessons and Stories*. They follow the “Scope and Sequence” of Hazel Loring’s 1980 *Reading Made Easy with Blend Phonics for First Grade*. They are not designed to be used as a stand-alone spelling program.

Explanation of the Spelling Practice Card Numbers:

Step 1, Unit 2

Story 1-5 (5) Number in parenthesis is Cumulative Vocabulary

Step numbers indicate the broad linguistic categories. There are Six-Steps. The Unit numbers represent more narrowly defined linguistic categories.

Donald L. Potter began this project on January 29, 2016. The last card was typed on March 9, 2016 at 6:30 p.m. Revision: moved Stories 26 & 27 to 17 & 18 and added 2 Units on 5/27/2017.

Instructions for Using The Blend Phonics Decoding & Spelling Cards

The Blend Phonics Decoding and Spelling Cards are a powerful tool for reinforcing basic phonics and helping students master the fundamental principles of accurate spelling. The flashcards follow the Scope and Sequence of *The Blend Phonics Lessons and Stories*. There are 62 lists of spelling words, one for each story. The students should begin memorizing the spelling of the words AFTER they have learned to sound them out in the lessons. I recommend both oral spelling with letter names and written spelling (SOS: Simultaneous Oral Spelling). Cursive is preferred because of its significant advantages, but manuscript can be used if preferred. There are 638 spelling words in all. According to Dr. Ronald P. Carver's research, learning the spelling of words increases word recognition speed and improves reading fluency and comprehension. Never neglect to teach spelling.

The words are coded as follows: Story, Unit (consecutive number).

Story 1, Unit 1, word number in Lesson; The number in parenthesis is the consecutive number in the program.

Always strive for absolute accuracy, but allow time for the student's nervous system to acclimate to the demands of good, long term spelling ability. This time varies for different students. **Repetition over time is the key to mastery.** January 30, 2015. Revised 5/27/2017.
