March 30, 2014

A reading Primer is a book for teaching beginners to read. A Preprimer is a book to be used before the Primer.

These cards are designed to help students gain the basic beginning letter identification and decoding skills they need **before** starting the Natural Phonics Primer. They are not for whole-word memorization. The students are to carefully sound-out each word until they achieve automatic (accuracy + speed) .

Special attention is paid to letter identification and discrimination, both the written letter and the sound represented by the letter

The cards are coded by lesson and consecutively: i.e.: 14-2 (41) = Lesson 14, Card 2. The number in parenthesis is the cumulative number.

Permission is hereby granted for non-commercial reproduction for educational purposes. Just cut out the cards and laminate them.

Natural Phonics Primer: Preprimer

<u>Steps</u>	<u>Phonics Skills</u>	<u>Lessons</u>	<u>Number of Words</u>
1	Short-ă m n r f s	1-6	8
2	Short-ě t l g c k b	7-13	31
3	Short-ĩ h d p	14-17	62
4	Short-ö j w	18-20	45
5	Short-ũ z x a v y	21-26	37
6	Double Letter Endings	27	36

The Steps can be used to group the cards in a card file. They should be taught in order, but practiced out of as the students gain accuracy and speed. This discrimination practices is vital for the development of automatic.

Note from Internet Publisher: Donald L. Potter

April 12, 2014

These cards are decoding cards. They NOT whole-word memorization or sight-word memorization cards. Absolute accuracy with decoding should be established PRIOR to using them to build word identification speeds. It is legitimate to time students reading the words but only AFTER they have established accurate decoding skills.

These *Preprimer Cards* are designed to teach the 213 words in the *Natural Phonics Primer: Preprimer*. Students who can decode these words accurately and rapidly (fluently) will be ready for the *Natural Phonics Primer*. Last edited 4/16/2014.
