Errors:	Errors:	Errors:	Errors:

Scoring: 0-1 errors = Exceptional: Independent Reading Level
2-4 errors = Satisfactory: Instructional Reading Level
5 or more errors = Unsatisfactory: Frustrational Reading Level

The 1987 *Riverside Informal Reading Inventory* by Leo Fay/Bruce Balow/Richard Arnold. Walter H. MacGinitie, Evaluation Coordinator.

There were three parts to the 1987 *Riverside Informal Reading Inventory*: The Quick Recognition (QR) section of the test was given first as a screening device to determine where to start the Oral Reading (OR) and Silent Reading (SR) sections of the assessment. The Silent Reading (SR) portion included eight comprehension questions. After using the test continuously since 1990, I have discovered that the Quick Recognition (QR) section alone gives a fair assessment of the student's reading level.

1/1 = first grade 1st semester; 1/2 = first grade 2nd semester, etc.
