Yale yard yarn yawn year yeast yell yellow yelp yes yesterday yet yield yoke yokes young younger

zero ziz-zag

Note: lead/lead, bell/Bell, bill/Bell, tear/tear, lead/lead, read/read, wind/wind are counted as separate words. Grizzly Bear and Polar Bear are counted as compound words (a dash was used to keep them together in counting, ziz-zag also. A few uncommon words like "ruching" are taught. Inclose is a variant spelling for enclose.

Study Comparing the 220 Dolch Sight-Word List¹ with *Word Mastery*

The following 33 Dolch List words are **not** taught in *Word Mastery*:

always, any, are, been, don't give (*Given* is taught.) goes, have, I, into, its, like, (*Liked, alike, dislike, unlike* are taught.), little, long (*Belong* is taught.), many, myself (*himself* and *my* are taught), never, of, once, one, only, over, pretty, said, sow (*Sown* is taught.), she, together, two, under, (*Underneath, understood, and undertook* are taught.), upon, very, you, your.

¹Edward W. Dolch, "A Basic Sight Vocabulary," *The Elementary School Journal* (February 1936), pp. 458-59. [*A Basic Sight Vocabulary of 220 Word, Comprising All Words, Except Nouns Common to the Word List of International Kindergarten Union, The Gates List, and The Wheeler-Howell List.*]

Concerning the Dolch List, "Although this list was generated more than 40 years ago, these words account for more than 50% of the words found in textbooks today." Johns, J. L., and D. W. Ellis, 1976, "Reading: Children Tell It Like It Is." *Reading World* 16.

The few Dolch List Words absent from *Word Mastery* are easily learned because of their high frequency in children's literature. Students who have mastered *Word Mastery* will have absolutely no problem learning these words. The phonograms necessary to decode most of these words are taught in *Word Mastery*. *Word Mastery* is not designed to teach every word, it is designed to teach **how to read** every word.

A first-grader who has mastered the phonics necessary to sound out the 3,326 words in *Word Mastery* will be a vastly more capable reader than a first-grader who has labored to memorize the 220 Dolch Sight-List words with the whole-word, look-and-say techniques. In fact, students that have mastered *Word Mastery* will have no need for decodable text since they will have mastered all 44 English speech sounds and their major spelling patterns necessary to read any text on their vocabulary level, i.e. grade-level material and somewhat above.

Florence Akin's *Word Mastery* has been available for FREE download from the www.donpotter.net website since January 2004.

On July 1, 2014, I published a beautiful, large print paperback with CreateSpace. You can get information for ordering a copy from www.wordmastery.org or just by searching on Amazon or Barnes and Nobles. Be sure and search for Donald Potter's edition since others are available. My edition is not a mere PDF copy of the original, but the same book freshly retyped with extensive historical and other information at the end.

If every first grader in America were to receive a copy of *Word Mastery* at the beginning of first-grade and study it through third, we would see a dramatic increase in literacy in America.

Mr. Potter last updated this document on October 11, 2014.
